ALTIOS

ALTIOS LAUNCHES THE ALTIOS FOUNDATION

To make international development impacts positive for all.

ALTIOS Launches the ALTIOS Foundation, aiming at making international development impacts positive for all.

Paris, France – 18 juin 2026 - ALTIOS, a leading international advisory firm supporting companies in their global expansion and cross-border investment strategies, announces the launch of the **ALTIOS Foundation**, a dedicated endowment fund designed to mobilise the Group's international expertise, entrepreneurial ecosystem and global network in support of high-impact social initiatives worldwide by scaling skills-based philanthropy.

A New Milestone in ALTIOS' Global Development

The creation of the Foundation marks a new milestone in ALTIOS' development as the Group celebrates 35 years of supporting business growth across international markets. Building on a presence spanning 40 offices and a track record of supporting more than 12,000 companies globally, the Foundation formalises a commitment to contributing positively to the communities in which ALTIOS operates.

The Foundation aims to bridge professional expertise and societal needs by providing organisations, entrepreneurs and local communities with access to strategic guidance, mentorship and financial support.

Turning International Expertise into Societal Impact

Leveraging ALTIOS' international footprint and multidisciplinary expertise, the Foundation operates through three complementary pillars:

- **People** – mobilising skills-based volunteering and mentorship programs to support individuals and entrepreneurs.
- **Projects** – partnering with non-profit organisations and local initiatives to strengthen their development and long-term sustainability.
- **Charity** – providing financial support to selected initiatives, combined with operational expertise and strategic mentoring.

Employees across the Group are encouraged to identify, sponsor and actively contribute to projects aligned with the Foundation's mission, creating a direct link between professional expertise and societal impact.

From Global Reach to Local Action

In its first phase of deployment, the Foundation has launched seven projects spanning nine countries, supported by twenty mentors from the ALTIOS network. The projects contribute to several United Nations Sustainable Development Goals (SDGs), with a focus on empowerment, education, entrepreneurship and community development.

Building a Long-Term Platform for Engagement

Through the Foundation, ALTIOS intends to create a long-term platform for engagement, bringing together employees, partners, clients and local organisations around shared objectives of sustainable development and inclusive growth. As international businesses continue to play an increasingly important role in addressing social and environmental challenges, the ALTIOS Foundation reflects a broader evolution in corporate responsibility.

"Over the last three decades, we have built a global organisation dedicated to helping companies succeed internationally. Through the ALTIOS Foundation, we want to place that same international expertise at the service of projects that create lasting positive impact for people and communities," said **Bruno Mascart, Group CEO of ALTIOS**.

"The strength of the Foundation lies in its ability to combine global expertise with local action. Our ambition is not only to provide financial resources but also to mobilise the knowledge, international experience and entrepreneurial mindset that have defined ALTIOS for more than 35 years", said **Adrien Jumeaux, Secretary of the Foundation.**

About ALTIOS

Founded in 1991, ALTIOS is a leading global advisory firm focused on small and mid-cap companies' international expansion and cross-border investment. With more than 500 professionals across 40 offices in 25 countries, ALTIOS supports over 12,000 companies through global growth strategy, market entry, international expansion, corporate services, compliance management, talent acquisition and cross-border investment projects.

About the ALTIOS Foundation

The ALTIOS Foundation is an endowment fund established by ALTIOS to support social impact initiatives through skills-based philanthropy, mentorship and financial contributions. Leveraging the Group's international presence and expertise, the Foundation works alongside local organisations, entrepreneurs and communities to foster sustainable development and positive societal outcomes worldwide.
