French Owned Australian Entities and French Entrepreneurs in Australia

First Report - May 2025

This first edition of the Survey on French-Owned Australian Entities and French Entrepreneurs in Australia carried out by FACCI highlights the growing footprint of our economic community in Australia and the diversity of our presence (from energy to transportation, from transnational companies to SMEs).

France has been the third-largest investor in Australia¹ thanks to major acquisitions (Saint Gobain/ CSR, L'Oreal/Aesop, In Vivo/United Malt...), but also a huge number of small acquisitions throughout Australia. French companies are not only investing, they are also deeply involved in the Australian economic landscape and support the Australia's economic growth in many sectors. As a result, 800 subsidiaries of French companies count for more than 80,000 jobs in Australia!

Australian companies also invest in France which has reaffirmed its position as Europe's leading destination for foreign direct investment (FDI) for the 6th consecutive year. As two trading nations, we foster strong ties and these numbers reflect the depth of our economic partnership.

Let's celebrate our cooperation with Australia, let's make this survey the first of a long series, offering a better understanding of the French presence in Australia. We need your support to do it; do not hesitate to share and give us the key highlights of your presence. Thank you all, and special thanks to FACCI that designed and carried out this study.

Quarterly Report on Foreign Investment – 1 April to 30 June 2024, The Australian Federal Treasury

Context

FACCI, supported by Team France Business, conducted its first official survey in 2024 of **French-owned Australian entities and French entrepreneurs.** This initiative, made possible thanks to the <u>STAFE programme</u> and the Consulate General of France in Sydney and Melbourne, aims to empower and accelerate growth within the Australian market. Together, we can build a stronger French business community in Australia.

By precisely identifying entrepreneurs and businesses, we aspire to:

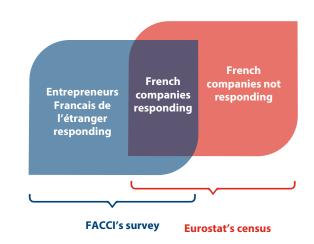

- Measure the strength and impact of the French business presence in Australia.
- Raise awareness of their activities in the eyes of the French and Australian governments to provide them with more support and develop fruitful relationships.
- Create a strong and dynamic network under Team France Business's banner.

Scope & Methodology

The survey ran from **September 2024 to March 2025**.

It gathered data from **342** entities across Australia, providing valuable insights into the presence of French businesses. A 12-question survey was distributed through FACCI's communication channels – including social media, direct emails to its members and broader community – as well as through the support of partners. The information collected was entirely declarative, and some optional fields, allowing respondents to provide details at their own discretion.

While Eurostat recorded **778 French subsidiaries in Australia** in 2022, this survey nonetheless marks an important first step in quantifying and understanding their impact. Unlike the Eurostat figure – which is likely based on broader company registration data – this survey relies solely on **voluntary participation**. As such, the figures presented here should be interpreted as a **qualitative snapshot** rather than an exhaustive count.

For over 125 years, the French–Australian Chamber of Commerce & Industry (FACCI) has supported the growth of bilateral trade and investment, championing a vibrant community of French and Australian businesses. As a proud member of Team France, FACCI plays a key role in enabling the organic connection of its entities and helping to unlock their full potential.

Despite the growing footprint of French-owned Australian entities and French entrepreneurs across the country, their collective scale, reach, and economic contribution have remained largely under-recognised – until now.

The network of French–Australian businesses is expanding rapidly. Over the past five years alone, FACCI's membership has grown by more than 20%, reflecting the increasing number of professionals and companies establishing themselves in Australia. More importantly, these entities are actively engaging with our network and the broader Australian ecosystem – driving business success and making a meaningful, positive impact on Australian society.

It is now timely to take stock of this dynamic landscape. Thanks to the STAFE Grant and the wider Team France Business network, FACCI has been able to dedicate resources to this project and deliver it through our established national presence. By mapping where these businesses operate and how they contribute, this report offers valuable insights into the French–Australian business landscape. It also serves as a practical tool to identify opportunities for companies seeking to grow or expand their operations in Australia.

With this survey, we are proud to further our mission: to connect, promote, and support businesses at every stage of their journey. We trust this report will prove to be a valuable resource for all those engaged in strengthening the French–Australian economic relationship.

We are Stronger Together!

Junt -

French-Australian business landscape at a glance

French subsidiaries in Australia (Eurostat, 2022)

89

industries represented

French businesses have been active in Australia since the late 19th century, with steady growth accelerating since the 2000s.

surge of creation of French-Australian companies

between

6 months &135 years

active in Australia

Driving industries (infrastructure, defence, and renewables) / Business-friendly and visa pathways / Stable market investments after GFC / Growing startup ecosystem / French business networks easing entry.

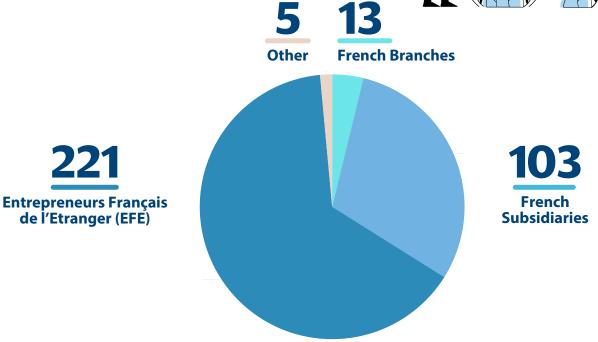

of the respondents operate as **Australian private companies**

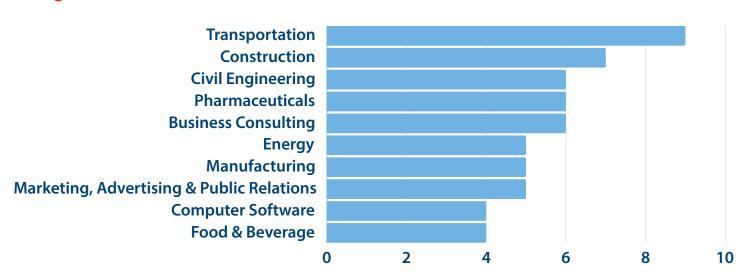

as individuals / sole traders Strong corporate and entrepreneurial ecosystem

Distribution of entity types among respondents

Top 10 industries represented among French subsidiaries and branches

This representation reflects both **traditional and emerging sectors** – showcasing the **diversity and adaptability** of the French business community in Australia, its **cultural influence**, and its alignment with national priorities in **sustainability**, **innovation**, and **infrastructure**.

- 2. Transportation
- 3. Energy
- 4. Facilities Services
- 5. Civil Engineering
- 6. Pharmaceuticals
- 7. Marketing, Advertising & Public Relations
- 8. Chemical
- 9. Food & Beverage
- 10. Construction

Estimated total number of employees working for French-owned entities in Australia

Our survey identifies many **SMEs and entrepreneurial ventures** within the French-Australian business community, with **40% of respondents** employing between **2 and 10 people**. This result provides valuable insights into the businesses actively engaging with the community and seeking growth opportunities across Australia. While larger companies are underrepresented, their ecosystem impact remains significant. **18% of EFEs** report having **more than 11 employees**, highlighting the role of **entrepreneurs and branch structures** in maintaining a strong workforce presence in Australia.

French employee representation

Percentage of French employees by company size

On average, 38% of employees are French across responding E.F.E.s

On average, 18%

of employees are French across responding French branches and subsidiaries

French companies support Australian jobs!

While smaller businesses like E.F.Es have a higher proportion of French staff, larger firms – such as subsidiaries and branches – undeniably contribute to local employment in Australia.

State repartition & business highlights

NSW: New South Wales

stands out for its economic importance, advanced infrastructure, and access to key markets. Sydney's role as a major business hub makes it a top choice for companies. The state benefits from the largest domestic market, major investments in pharmaceuticals, biotechnology, and infrastructure, a high concentration of potential clients, and an international business presence.

French Business Footprint in Australia: Key Hubs and Emerging Markets

Larger dots represent main interests and office concentrations while smaller dots highlight growing interest and expansion potential across states.

OLD

VIC: Victoria

offers strong business opportunities in Melbourne and surrounding regions. Retail, hospitality, fashion, and wine & food industries thrive, with a strong demand for multicultural and language-learning services. Also, R&D and education regulations make it appealing.

WA SA NSW

VIC ACT

(TAS

QLD: Queensland

plays an important role in the national landscape, particularly for industries focused on tourism, natural resources, and expansion into less congested regions.

Economic growth and infrastructure projects, including the Brisbane 2032 Olympic & Paralympic Games, are driving interest.

SA: South Australia

is known for its affordability, high quality of life, and supportive business environment. SA appeals to entrepreneurs and professionals with existing networks, and is increasingly attractive for those in the renewable energy, agribusiness, and space sectors

WA: Western Australia

supports major operations in resources and mining, thanks to its vast natural reserves, stable regulatory environment, and strategic location close to key Asian markets. The state is also a hub for innovation in energy and sustainable mining practices, drawing significant local and international investment.

TAS: Tasmania

sees limited but growing interest, particularly in agriculture, tourism, and sustainability.

NT: Northern Territory

hosts targeted activities in mining, resources, and remote operations, offering opportunities for industries operating in specialised or remote contexts.

The high frequency of NSW (Sydney) and VIC (Melbourne) reflects their roles as business hubs in Australia. These locations are critical for businesses seeking access to large, developed urban markets with robust infrastructure, talent pools, and logistics.

25%

of businesses have opened offices in at least one other state 50%

of French subsidiaries & branches have expanded beyond their initial location of establishment.

<10%

of EFEs have opened offices in multiple states, indicating room for growth.

Looking ahead: conclusion & opportunities

This first official survey of French-owned businesses and entrepreneurs in Australia has provided valuable insights into our community's presence and economic footprint. It also sheds light on the key industries where French businesses thrive, their contributions to employment and innovation, and their role in strengthening bilateral trade.

Australia: A Growing Appeal for French Businesses

The report confirms Australia's status as a strategic destination, with an increasing appeal for French entrepreneurs and companies. As a stable market in the current geopolitical context, Australia presents significant opportunities. However, there is still room for growth, and initiatives such as the **E.F.E and V.I.E programmes** can provide valuable incentives for companies looking to expand.

A Call for Greater Participation

This survey represents a valuable first step in mapping and understanding the footprint of the French business community in Australia. However, many organisations are still unaccounted for. A more complete dataset would allow for a richer analysis, ensuring that all industries and business sizes are adequately represented. That's why we encourage those who haven't contributed yet to **take part** – every response strengthens the accuracy and impact of the findings.

Looking Ahead: Strengthening Our Network

To track progress, we propose conducting this survey **every three years**. Regular updates will allow for a deeper understanding of emerging trends, sectoral shifts, and the evolving needs of our community.

Beyond the data, **FACCI & all actors of Team France Business** remains committed to animating this network, fostering collaboration, and amplifying our community's voice. This survey will help us raise awareness of our activities with both the French and Australian governments, ensuring continued support and recognition for French businesses in Australia.

Thank you to all participants – your input is shaping the future of the French business network in Australia!

About the V.I.E Programme

The **V.I.E Programme** (Volontariat International en Entreprise) offers French companies a unique opportunity to expand internationally while benefiting from skilled young talent. Open to candidates aged 18-28 from France and the European Economic Area, this initiative allows companies to send a motivated young professional abroad for 6 to **24 months**. Businesses with or without a local presence can take advantage of this programme, with **Business France** facilitating placements through partnerships. Whether strengthening presence or supporting international growth, V.I.E provides a cost-effective and flexible solution for companies looking to develop their global operations while nurturing future talent.

About the E.F.E Programme

The French Foreign Trade Advisors and CCI France International have decided to join forces to support French Companies Abroad, as effectively as possible by creating a new structure: **EFE International**.

The E.F.E program enables **French entrepreneurs in Australia** to recruit V.I.Es, even if their company is not registered in France.

The mission of EFE International is to:

- Develop French trade overseas
- Provide services to French entrepreneurs overseas
- Strengthen the relationship between French Entrepreneurs overseas and France

Launched recently, the **Label E.F.E** is a new recognition designed to highlight entrepreneurs who actively contribute to France's international economic influence and meet specific criteria of French linkage, business structure, and engagement abroad. <u>Find more information here.</u>

Team France Business

TEAM FRANCE BUSINESS in Australia has several services and operators that collectively support businesses and public authorities: the Embassy of France in Australia, Business France, the French-Australian Chamber of Commerce and Industry (FACCI), the Franco-Australian Centre for Energy Transition. La French Tech Australia as well as the French Foreign Trade Advisors networks reinforce this remarkable team.

The Embassy of France to Australia - Economic Department ANZ and Pacific

Reporting to the Ambassador, the Economic Department leads Team France Business, with the support of the consuls-general. The Economic Department ANZ and Pacific is responsible for monitoring economic, trade, and financial issues across the Oceania-Pacific region; analysing sectoral policies; supporting the interests of French companies; and developing our bilateral economic relations.

French-Australian Chamber of Commerce & Industry

Established in 1899, the French-Australian Chamber of Commerce and Industry is the leading French-Australian business network, representing over 500 members and engaging with more than 15,000 contacts across Australia.

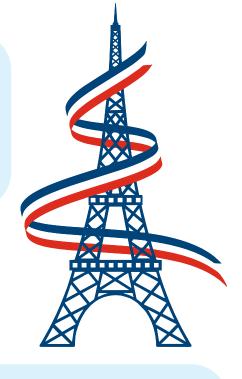

Business France

Business France's office in Sydney is the Trade and Investment Commission of the Embassy of France in Australia. It provides services to French companies for market entry to Australia and New Zealand and supports talent recruitment through the V.I.E. program. The office also promotes France's attractiveness to Australian investors by showcasing key sectors of excellence.

La French Tech Australia

La French Tech Australia supports, encourages, and accelerates the development of French tech startups seeking to establish a presence in Australia. Likewise, they assist Australian tech startups in settling in France to conquer the European market.

Franco-Australian Indo Pacific Centre for Energy Transition

The Franco-Australian Centre for Energy Transition (FACET), a new initiative supported by both French and Australian governments, seeks to accelerate the development of French-Australian projects in the energy transition within the Indo-Pacific region. It focuses on key areas such as efuels, hydrogen, energy storage, critical minerals, and the future of electrical networks.

Les Conseillers du Commerce Extérieur de la France

The Conseillers du Commerce extérieur de la France (CCE) are local business leaders appointed by the French PM who volunteer to boost France-Australia trade ties, support French firms and talent, advise public authorities, and promote France's economic influence in Australia.
